Prof. Dr. D. G. Lyon.

Dear Sir:-

I accept your offer
of $100.- for the entire collection
of antiquities now in your
possession, excl. Lotter water.
The small articles were found
at the following places:
The phallic symbols at Gezer
Stone knives, hatchet & paw " "
Large bowl " "
Inscribed lamps around Jerusalem

(3862)

The other worked flints in the Belka.
The painted pottery, handles etc at
Mutesellim; from which place
are also the stone weights and sling
stone
The cylinders came all without
exception from Mesopotamia -,
they were sent to me from there
at the time when I was in Jerusa-
lem.
I shall send to you from Jeru-
salem the exact data in re-
gard to the leaf with the Samaritan
writing.
The amulet was bought in

Jerusalem from a Jemenite Jew.
The Palmyrene inscriptions, lamps and
carving are from Palmyra.

As I have mislaid my list, I do not
know whether I have given you ~~all~~ in-
formation about all the articles, if you
will just mention those which I omitted
I shall endeavor to give you the exact in-
formation.

I believe that I told you that the silver
bracelet was found at Gezer

the daggers are of Bedouin workmanship, or at least Bedouin daggers, I bought them from a native.

I have sent off the Herbarium for your inspection.

I quoted you the price for both Herbarium and antiquities at $150.00, however, I accept your offer of $100. for the antiquities minus Esther and the watch or $105 for the entire collection.

Yours very truly,

Hans H. Spoer.
